Press Release:

May 9, 2012 – nVision Global **Technology Solutions, Inc.**, a leading Global Freight Bill Audit, Payment & Logistics Information Management Services provider has been designated a Top 100 Logistics IT Provider for 2012 by Inbound Logistics.

Every April, Inbound Logistics editors recognize 100 logistics IT companies that support and enable logistics excellence. Drawn from a pool of more than 300 companies, using questionnaires, personal interviews, and other research, Inbound Logistics selects the Top 100 Logistics IT Providers who are leading the way in 2012. Editors seek to match readers' fast-changing needs to the capabilities of those companies selected. All companies selected reflect leadership by answering Inbound Logistics readers' needs for simplicity, ROI, and efficient implementation.

Felecia Stratton, Editor of Inbound Logistics stated that "When choosing this year's Top 100 Logistics IT Providers looked for technology providers that solved specific logistics challenges, but also acted as change agents by helping to transform overall business operations. nVision Global was selected because its solutions work tactically to master supply chain transactions, as well as strategically to act as a change agent to drive the enterprise to more closely match demand to supply.

"We are truly honored to once again be designated as an Inbound Logistics Top 100 IT Provider" notes Keith Snavely, Senior Vice President, Global Sales & Marketing at nVision Global, "all Associates at nVision Global are dedicated to our continued global expansion and value-creating technologies that provide verifiable bottom line savings for our customers."

nVision Global, with four full service processing centers spanning three continents, partners with multi-national corporations to reduce their overall costs by providing a global, single outsourced solution to efficiently process, audit and pay all transportation related invoices on a global scale. nVision Global works diligently with its customers and their transportation providers by providing an efficient, streamlined, lower cost outsourced solution eliminating billing errors and providing actionable data. nVision Global's products and services allow its customers to streamline and optimize their global supply chains by providing actionable data through their leading edge web based analytical tools that assist in lowering overall transportation cost.
